DETAILED ACTION

Allowable Subject Matter

Claims 1, 3-8 and 10-12 allowed.

The following is an examiner's statement of reasons for allowance: Applicant's arguments are persuasive that Joliffe et al. discloses a genus of related compounds while the allowed claims are to a species. Compound 2-11 of Joliffe et al. (page 8) refers to a 1,4-phenylene-1,4-*cyclohexylene*-1,4-phenylene substructure instead of the 1,4-phenylene-1,4-*cyclohexenylene*-1,4-phenylene erroneously reported in the previous Office Action. Cyclohexenylene has one double bond in the ring as in the claimed group A⁴, while cyclohexylene has no double bonds in the ring. The 1,4-*cyclohexenylene* is a possible ring structure disclosed in Joliffe et al. (see pg. 5 lines 15-20), but there is no motivation found in the art of record to replace the cyclohexylene with the cyclohexenylene. Since Joliffe et al. discloses a broad genus of compounds without motivation to pick and choose the claimed species, the compound, its method of production, compositions comprising it, cured resins comprising it and prepregs comprising it are allowable.

The secondary reference used in the previous Office Actions, Bezborodov et al., does not provide motivation to replace the cyclohexylene with cyclohexenylene since only small compounds are disclosed instead of polymers. Small compound liquid crystals do not behave in the same manner as polymeric liquid crystals.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Amendment

The Examiner acknowledges that the amendment of "A⁴" to --A⁴-- does not change the scope of the invention and overcomes the objection to the claims.
